

deleo® Die-Kraft.com

Professional drain cleaner

Quickly and reliably clears blocked pipes

BENEFITS:

- **Effective:** deleo® dissolves all organic matter in drain pipes like hair, tobacco, cellulose pulp, cloth, kitchen waste, food scraps and grease in just a few minutes.
- **The product:** deleo® clears stubborn blockages. Its high specific gravity allows deleo® to pass effortlessly through bends to attack and clear any blockages further down the pipe as well.
- **Pipe safe:** Gentle on pipes. deleo® will not attack PVC, plastic or rubber seals in the drainage system.
- **Service:** Used regularly, deleo® prevents unpleasant disruptions caused by blocked pipes.
- **Bottle:** Practical „safety grip“ ensures optimum and safe use.
- **Environmental safety:** The active agent is waste water neutral after approximately 30 minutes.

APPLICATION:

Safety precautions: Wear safety gloves, protective glasses and work clothing.

- **Pipe:** As far as possible, eliminate excess water from the drain.
- **Application:** Carefully pour deleo® through a funnel into the blocked drain. Depending on the extent of the blockage and pipe diameter, pour in between 200 ml and 1,000 ml. Do not use deleo® with bottle traps.
- **Reaction time:** After about 30 seconds, add approx. 200 ml of water. Leave to act for around 3 to 5 minutes, then flush with plenty of cold water.
- **Yield:** One bottle of deleo® is sufficient for 2 to 4 uses.
- **Dosage:** Stated quantities are for guidance only.
Using excess product will not unblock the drain any faster.
- **Surfaces:** Not suitable for aluminium, stainless steel, galvanized and chrome-plated parts.
- **CAUTION:** Never use deleo® drain cleaner in conjunction with other chemicals. Avoid breathing in any emissions/vapours that are released. Ensure rooms are well ventilated before using deleo. Open windows and doors, switch on extractor fan if fitted. Please always read and follow the safety data sheet.
